

Bring GCSE Controlled Assessments to life!

A brand new series of modules with exciting themes and activities for preparing candidates for controlled assessments and raising attainment.

Within each module you will find:

- A series of engaging, differentiated resources which include video clips, sound files and all the classroom resources you'll need for foundation and higher students.
- Full Scheme of work with step-by-step lesson activities.
- Speaking and writing frames and graded model answers.
- Strategies to enable creativity and individuality in the controlled assessments, so that all do not appear to be the same. (a problem that the examiners' reports of 2012 highlighted)
- Develops memorisation techniques and includes listening and Reading activities to prepare for final exams.
- Activities are suitable for all awarding bodies' specifications: AQA, OCR, Edexcel and WJEC.

6 Modules each in French, Spanish and German:

Active Life: Sports and sporting personalities: regular, extreme and unusual sports. Sports profiles, equipment, physique, maximum performance, injuries, diets for different sports, activity holidays, Olympic and Paralympic athletes.

Media and Celebrities: Describe a celebrity, their looks and personality, giving opinions about them and talk about their past, present and future exploits. Look at the world of popular culture in both the UK and Target Language countries.

My Life: Find out about daily routine, homes and possessions and events in a very different country. Use this as an inspirational stimulus to enable students to write about their own life. **F - Haiti; S - Argentina; G - Account of Anne Frank and Kindertransport**

Holidays and Travel: Explores travel and world wide holiday destinations, holiday types and activities, mishaps, future plans, past experiences and dream holidays. Creative ways to prepare pupils for giving detailed accounts of holidays and expressing preferences and opinions.

Get that Job: Explores the world of work and jobs and prepares students to be able to write CVs and letters of application. Also helps students to be able to take part in a simple job interview, which could be used as a Speaking Assessment.

Healthy Living: Analyses diets and nutrition. Looks at problems and issues with teenage lifestyles. Prepares students to be able to describe their diet, give opinions about food and drink, compare their current lifestyle to their childhood one, describe teenage issues and explain how they can make improvements.

Authors: **Juliet Park** is Director of Languages at Yewlands School and a Languages consultant. Juliet is currently working with OCR and AQA in the development of the new GCSE and has wide experience of creating MFL teaching resources for KS4. **Wendy Adeniji** is Vice Principal at Kings Science Academy and a Languages consultant. Wendy has worked as a national trainer and writer of teaching resources. She has written for BBC Education, Heinemann and Mylo.
